

# Passion Audit

What I am  
good at?

What do I dislike  
doing?

(If I no longer had this  
responsibility,  
it would be OK)

What do I love  
doing?

(I would do it for free  
if I could)

We need to spend just 20% of our time doing things we are passionate about.  
Learning to identify our passions is a critical first step.  
Learning how to make a career out of our passions is the next step.
